The upper table thickness is 1.5 mm and it is made of AISI 304 quality stainless steel material. Body sheets are made of 1 mm Scotch Brite stainless steel material. It can be used as a stovetop or with a

CONSTRUCTION FEATURES

Stainless steel construction suitable for heavy use conditions;

The thickness of the upper table is 1.5 mm, made of AISI 304 stainless steel material.

Body sheets are made of 1 mm Scotch Brite stainless steel material.

With 90° angled side edges created by laser cutting, there are no gaps between the units. Thus, it does not allow dirt to accumulate between the units.

SAFETY EQUIPMENT &

APPROVALS

There are CE approvals for all directives and regulations.
